Dear Sirs

Here comes a suggestion to do a European Cup in Show jumping.

We have WC, Super League, Global Champions Tour, Riders Tour etc (mostly for the 60 best/same riders), Football have Champions league, skiing has WC etc.

In most sports there is a tournament/cup for the athletes after the top ranked. Call it second division, for athletes on the way up, Younger Riders, smaller countries etc. So they make more interesting events, educate more athletes, judges and course designers before the WC level. When you see the size of the sport there is room to make a cup under the wc formula, like we have the promotion league in Nation Cup.

Attached is a suggestion with some ideas how ta make a European Cup.

Vennlig Hilsen/Best Regards
