National Federation (NF) proposing the Candidate	CROATIA

Motivation for serving on the Board
<p>Dear NFs and representatives of NFs in the EEF,</p> <p>As a representative of the CRO NF along as Chairman of the Balkan Equestrian Council , I have been involved in the EEF matters for a many years.</p> <p>Most recent I have actively contributed to the creation of EEF Development / Evolution Series.</p> <p>One of the significant achievements was Signatory of the agreement between EEF and Balkan Equestrian Council pursuant to which the Balkan CHs were saved and continued the 60years tradition and are taken over by the EEF from 2017.</p>

My future goals are :

- **JUMPING:** Helping and motivating NFs that are not currently represented, to become part in the EEF Evolution League and the EEF Series
- **DRESSAGE:** Helping and motivating NFs that are not at top level in dressage to participate in international events and grow their level, by supporting dressage competitions at regional level (i.e. CEDWG, Balkan CH, Baltics, Evolution League) and incorporating them in the European Dressage scene
- **DRIVING and ENDURANCE:** Encouraging organization of international events in countries that do not have enough international exposure. Upgrading the level of OCs and venues in European countries that are not in the center stage of the sports, but have huge future potential because of geography, tradition and economy.

- Providing the systematic pathway for young generations of riders to compete successfully at international level and to help increase participation in riding at both competitive and recreational level, and keeping all equestrians involved in our sport throughout their lives

- Further development of the EEF Evolution program which will include all the EEF NFs experience and good practices in order to provide us all best know how along with guidelines for proper long term success in our sport.

This program should be made with all member NFs and be defined in following :

* Providing of quality equestrian sport experience in which participants remain in the sport throughout their lives, while they are able to achieving their own sport goals

* Development of physical program which will ensure the high-performance, excellence and physically active population engage both in riding and competitions

* Development and application of training/education plans specific to the developmental stage of the athlete/official which should incorporate advancements in sport science

* Professional identification of emerging talents to ensure that these athletes which are candidates toward podium success really are supported and managed properly

* Educate Equestrian community of the importance of proper equestrian phases and lifelong development

* Certification and Professional development programs for Coaches working in different coaching context

* Open and clearing the goals and objectives of equestrian sport to the recreational riders and drivers

* Education of parents about child and youth development, the need for physical literacy and most important : horse selection and management

- The big step in success and development of our sport in Europe is honest and goodwill cooperation between all Federations and equestrians throughout sharing the knowledge and experience between us all

- Importance of cooperation with European Commission in order to define sport horses as sportsman and to help in that matter for members of EEF which are not in EU to travel on competition with dignity which they and their horses are deserves

My motivation is to complete the tasks I have already working on within EEF members and to continue to work in the future for development, prosperity and quality in all equestrian aspects. I will be committed and dedicated to perform duty of EEF Board member with all necessary time, knowledge and resources.

It will be my great honor to serve all EEF comunity if you will elect me for a new Member of the EEF Board.

Thank you for your time and attention.

Sincerely yours,

Alan Andabaka
